

## Lacking advance therapy options?

ActiGraft provides clinicians with wound management for patients with limited treatment options due to the complexity of wounds or are challenged due to fragmented and complex reimbursement structures associated with different therapies.

### Choose ActiGraft for your lost patients today.

Approved **20 applications** with superior coverage via NCD 270.3 & code G0465.

**Medicare Advantage** patients are covered via NCD 270.3.

For patients who have exhausted their CTP applications, ActiGraft provides an option for **continued advance therapy**.

Patients with exposed bone & tendon are **not excluded** from the NCD coverage.

ActiGraft can be applied on **large** and **irregular** wounds up to 56 cm<sup>2</sup>, offering excellent versatility.

**Inclusive treatment solution** for culturally and religiously sensitive patients – no bovine, porcine, placental, or any other 3rd party products.

A premium, autologous, point-of-care wound management solution created from a patient's whole blood. Once applied, ActiGraft<sup>PRO</sup> serves as a protective covering and optimizes the body's own healing potential.

**Eligible for reimbursement with Medicare and Medicare Advantage Plans.**

ActiGraft<sup>PRO</sup> is described by the National Coverage Determination (NCD 270.3) as a blood-derived product for non-healing wounds and is eligible for reimbursement nationally from Medicare and Medicare Advantage with HCPCS G0465.

HCPCS Code	HCPCS Description	Status Indicator	APC	Medicare National Average Payment Rate
G0465	Autologous platelet rich plasma (PRP) or other bloodderived product for diabetic chronic wounds/ulcers, using an FDA-cleared device for this indication, (Includes as applicable administration, dressings, phlebotomy, centrifugation or mixing, and all other preparatory procedures, per treatment)	T	5054	\$1,738

CMS will cover autologous PRP for the treatment of chronic non-healing diabetic wounds for a duration of 20 weeks, when prepared by devices whose Food and Drug Administration (FDA)-cleared indications include the management of exuding cutaneous wounds, such as diabetic ulcers.

**ActiGraft<sup>PRO</sup> Intended Use**

ActiGraft<sup>PRO</sup> is topically applied for the management of exuding cutaneous wounds, such as leg ulcers, pressure ulcers, diabetic ulcers, and mechanically or surgically debrided wounds.

**Healing is in Our Blood**
